

I am a veteran of the second world war and I enjoy listening to the programs offered on XM stallite radio that I cannot receive on radio. My local radio program have poor reception and I travel between New York, New Jersey and Florida and cannot get the old time music that I can get on XM radio. I also very much enjoy the weather and traffic bulletins that XM radio offer. I did not fight in the war for four years to now hear that I do not have the Freedom of listening to the programing offered by XM radio. Please do not change XM radio.
